

iswint

29th edition

23 July - 2 August

 **Timișoara**

A festival dedicated to students

International Student Week in Timișoara (ISWinT) is an educational intercultural festival organized by the League of Students from the Faculty of Automatics and Computers (LigaAC) with the support of Politehnica University Timișoara since 1994, being the oldest and largest project of the organization. The festival is dedicated to students between the ages of 18 and 30, enrolled in any university around the world. The goal of ISWinT is to educate young people to take action and make their voices heard, making changes their communities.

LigaAC

PROJECT BY LEAGUE OF STUDENTS FROM THE
FACULTY OF AUTOMATION AND COMPUTERS

The League of Students of the Faculty of Automation and Computers (LigaAC) is a student organization that represents the interests of the students of the Faculty of Automation and Computers.

Founded in 1990, the LigaAC has grown more and more year by year, being active support in the development of students academically, socially, culturally, and professionally.

ISWinT activities

International Night

Romanian Night

The Parade

ISWinT 2023

The 29th edition takes place physically, between July 23 and August 2. This year's theme is:

CONNECTING THE DOTS

By taking part in the specific workshops, the participants will develop skills that will help them solve different problems from their communities.

In addition, we will have several events open where people outside the project can interact with international students.

Our goal is to have a local and international impact with this edition.

Tracks

We will have a total of 4 tracks:

Society without boundaries
Health and well-being
Developing our town
Education done right

Each track will have a series of workshops related to the theme of that track.

After the first 4 days of workshops, the participants will attend the ones specific to their tracks and will have to work as a team for 2 days and come up with an “Implementation Method” and present it during the “Project debate” dedicated to their track.
