

GREEN DESIGN BIENNALE is a dynamic multidisciplinary platform, which every two years brings **together designers, architects, urban planners, ICT experts, engineers from all over the world, with the aim** of promoting new design principles and solutions that **open the way to eliminating adverse impacts of modern civilization** on the ecological systems of the planet. Green Design Biennale was initiated by the President of the Green Design Foundation (SGDF) **Dr. Elma Durmisevic** creator of **the Innovation Park for Circular Building in South- East Europe** (Green Design Center Mostar), in order to strengthen awareness and scientific capacity in the transition towards circular economy.

Sarajevo is the third Green Design station after Green Design Biennale Mostar 2022 where the green design day (GDD) is being organized after Banja Luka and Tuzla. Sarajevo Green

Design Biennale Day will focus on circular building design and circular building economy in construction and will be organized in collaboration with UNDP, GTB Lab, the Faculty of Architecture, the University of Sarajevo. The participants will be introduced to Green Design Biennale 2024, the Green Design Centre and SGDF's pathways to support development of a resilient built environment.

Participants will have the opportunity to contribute to the **Green Design Biennale Day panel on *circular building design*** (in the organization of **the SGDF and UNDP**), visit **International Exhibition presenting Circular Architecture in the Netherlands, Luxembourg, Austria, Serbia and Bosnia and Herzegovina**, the **student workshop exhibition**, attend a **green Fashion Show** and taste a **Green Cocktail**.
